**Subject:** RE: Prep for visit tomorrow

Hi Dave:

I was just talking to Gwyneth about plans for tomorrow. Thanks for touching bases. Please have the visitor's center call Gwyneth Granville when you arrive. Her number is 916-341-5568.

As for agenda, yes, I had planned to go over the status of the various standards projects we are working on:

1. Toxicity Provisions and the Inland Surface Water and Enclosed Bays and Estuaries Plan
2. Administrative Record and follow up on Bacteria Provisions
3. Nutrients and bio-objectives
4. Mercury TMDL (or implementation plan) in reservoirs
5. Ocean Plan Triennial Review
6. Urban Pesticide Control Program/Plan Amendment

Let me know if I've missed anything.

I look forward to our discussion tomorrow!

KLM

Ellen and I are looking forward to seeing you in Sac tomorrow. Who should we call when we arrive? Are there any specific agenda items you'd like to discuss? We're assuming a general overview of pending WQS/basin planning/303(d) issues. Sound right? Thanks Dave Smith
